Ashish Kumar
Full Stack Web Developer

PROFESSIONAL SUMMARY

Results-driven MERN full stack web developer with expertise in solo and collaborative projects. Proficient in JavaScript, React, and RESTful APIs, delivering functional and scalable web applications. Problem-solving, teamwork, and adaptability skills to ensure seamless integration and exceptional results. Stay up-to-date with latest trends to enhance development process.

PROJECTS

1. Gem Garden | ⊕ | 🎮
JavaScript | React | CSS | HTML | Redux

- Played a vital role in the development of Gem Garden, an online jewellery and accessories shopping website.
- Implemented user and admin registration/authentication functionality.
- Developed CRUD operations for the admin interface.
- Facilitated the end-to-end flow for users, from selecting a product to adding it to the cart and making secure payments using various cards.
- Designed and developed a responsive product page, integrating filtering and sorting functionalities.

2. Edukin | ⊕ | 🎮
HTML | CSS | JavaScript | GitHub | RESTful APIs

- Contributed to the creation of Edukin, a website offering language courses for children aged 5 and above
- Implemented user registration and authentication functionality
- Developed the responsive testimonial page and applied courses list page
- Managed all exceptions, validations, and the GitHub repository

3. Create Creation | ⊕ | 🎮
HTML | CSS | JavaScript | GitHub

- Developed an online digital agency providing web development, app development, and SAAS dashboard development services.
- Implemented user registration functionality, home page, login, and signup pages.
- Designed the front-end user interface.
- Completed as an individual project within a 5-day timeframe.
